1.2

GRID SYSTEMS

Our grid system is based on a 12-column structure. Our grid columns have a 15px padding on either side, which creates 30px gutter between columns and a 15px gutter on the grid edges.

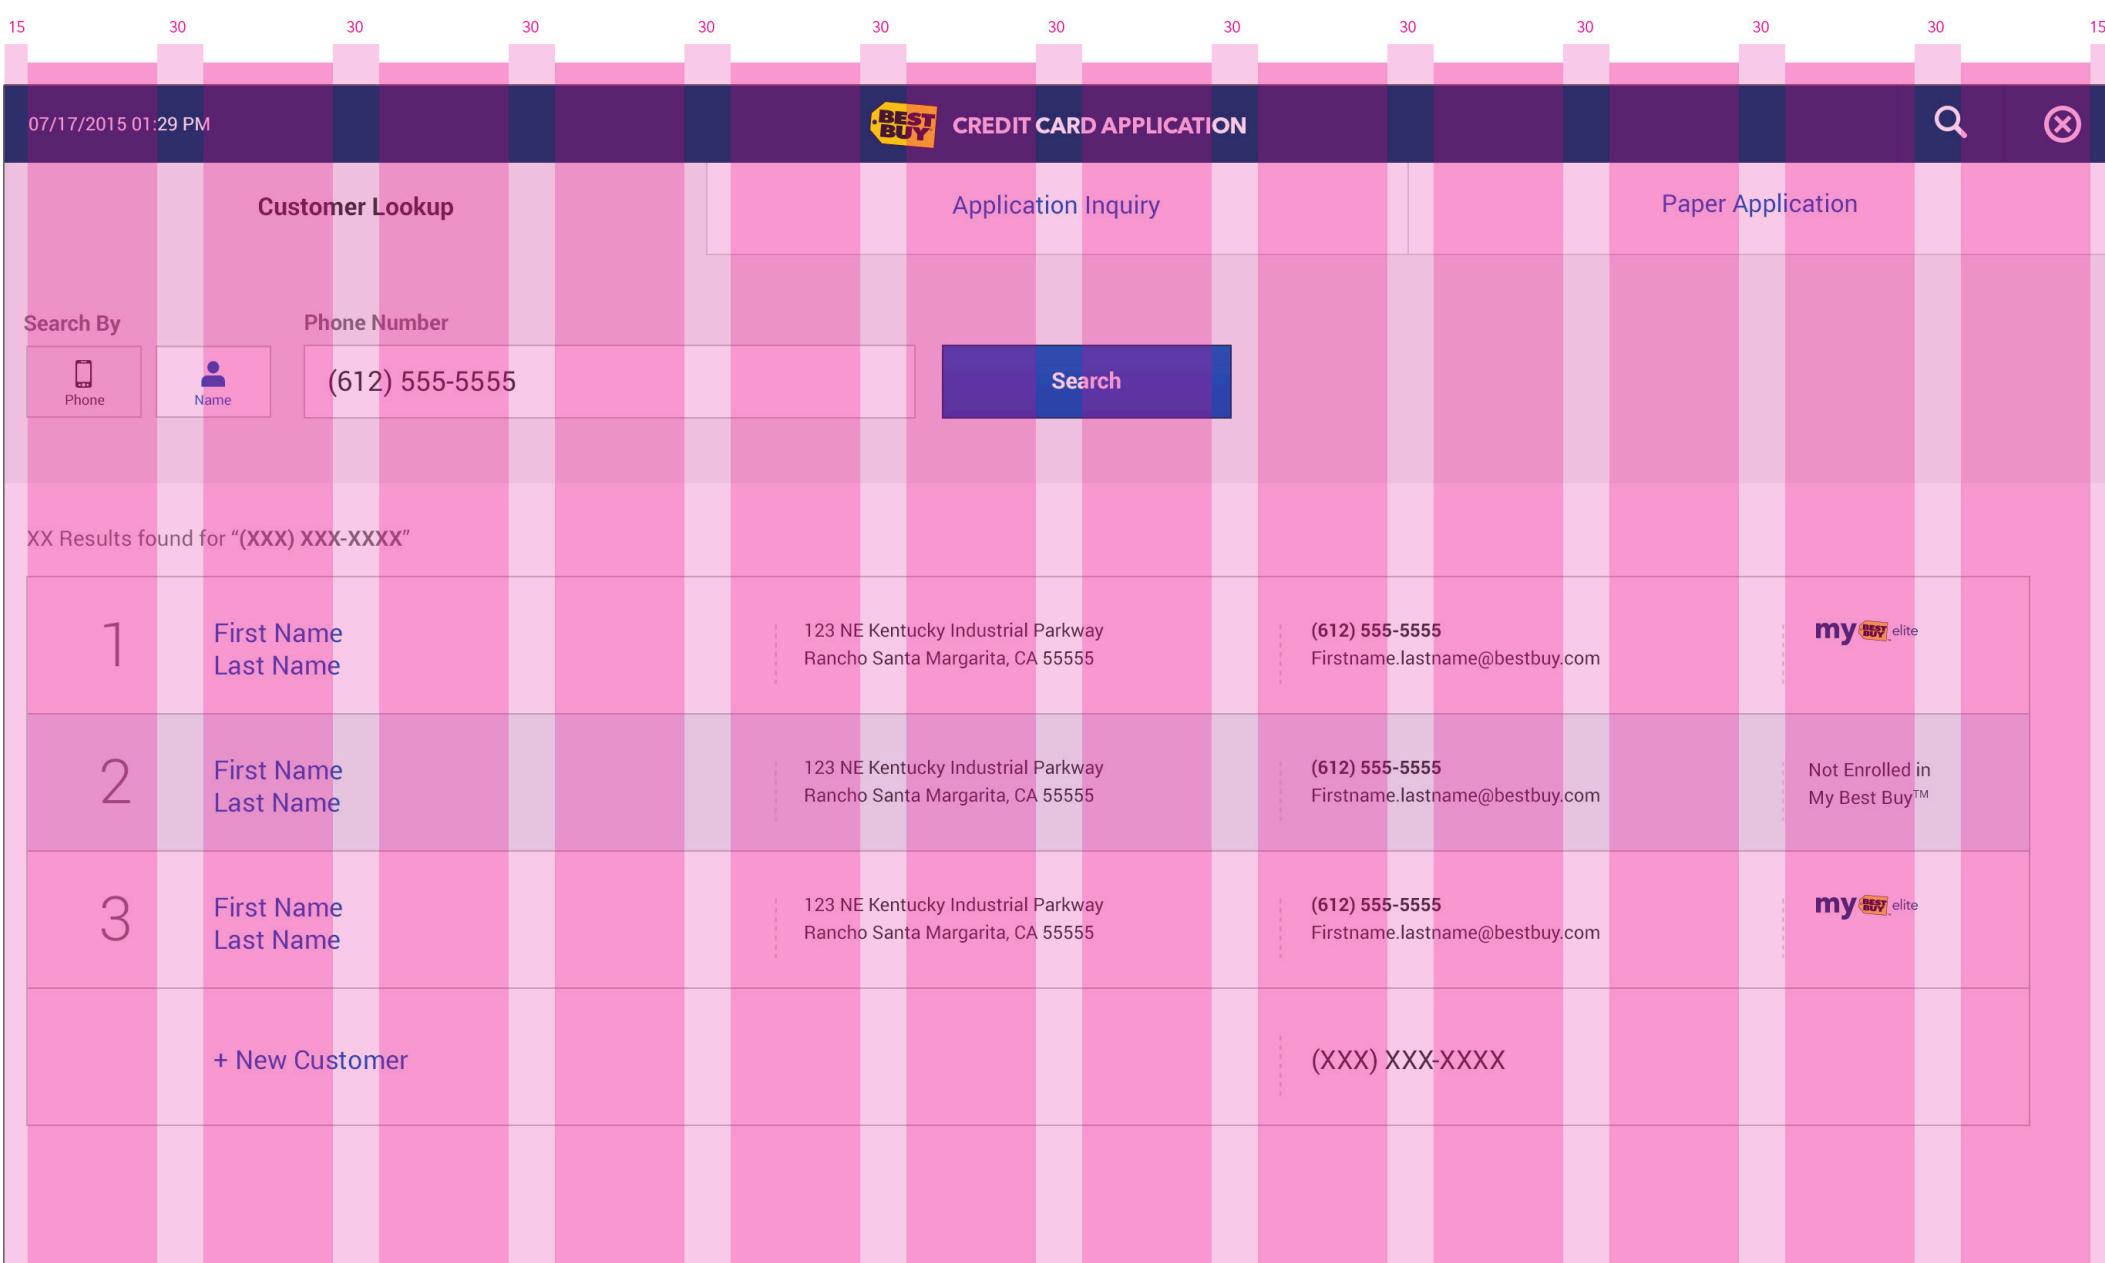

For fixed width builds the columns width will be as followed:

1024 Width: ~55px

1366 Width: ~84px

For responsive builds, columns are fluid while the gutter remains constant.

GRID SYSTEM FULL WIDTH

2.10

COLORS

The color palette is based on the existing color guidelines for Best Buy.

COLORS PRIMARY

Blues, grays and white are the primary colors used for the foundation of the system. They are found on backgrounds, navigational items and text. BlueShirt Blue indicates an item's interactivity and active selection.

COLORS SECONDARY

Green, red and blue are used more sparingly and have very specific usage rules. Green indicates in-stock items. Red indicates an out of stock items, CAP errors or sale price. Blue indicates a hover.

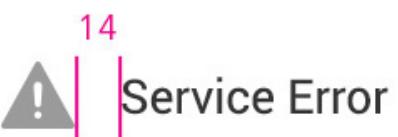

NOTE

3.7

SEARCH

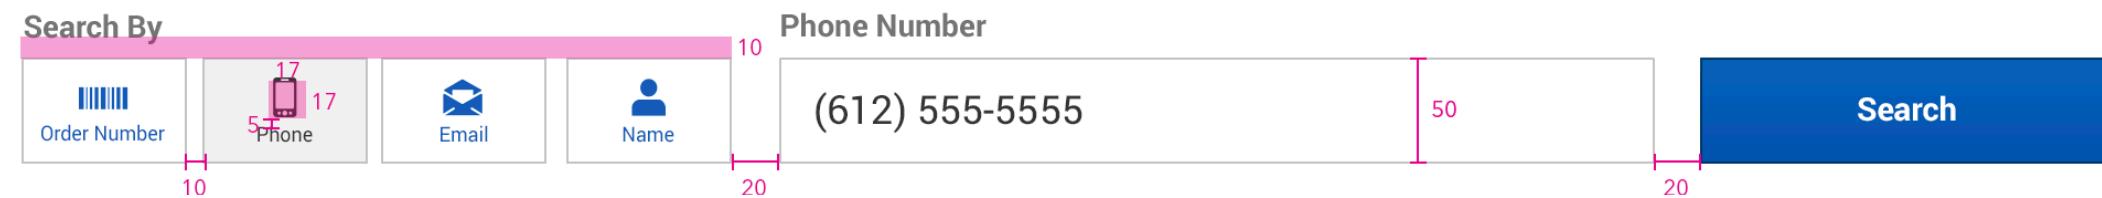

Each search pattern includes multiple options with variable input fields. Input fields are based on the type of search you are wanting to complete.

This wireframe illustrates the 'SEARCH V1: STACKED STRUCTURE' pattern. It features a header section labeled 'Search By' with four options: 'Order Number' (barcode icon), 'Phone' (phone icon), 'Email' (envelope icon), and 'Name' (person icon). Below this are three input fields: 'First Name', 'Last Name', and 'Zip Code'. Each input field has a placeholder text ('First Name', 'Last Name', '55555') and a small circular icon with a pink dot ('D') to its right. A large blue 'Search' button is centered below the input fields.
